

Requirements for Sample Size

- Please be reminded that the samples should be packed tightly to prevent cross-contamination. It is highly recommended to put the samples into individual sealed bags.
- Store the samples at specific temperature to prevent the microbial growth in the samples, which may influence the test results.

Product

For Qualitative Testing (QL) Sample Size (Net weight)

A. Soy or soy derived products

- | | |
|---|-------|
| <input type="checkbox"/> Soybeans | 500g |
